

Fence Fork™ & Fence Fork Clips™

Want an easier way to build fences? The 3 step process of the Fence Fork and Fence Fork Clips is up to **70%** faster than old style clips. No more reaching through wire and wasting time. Great for woven wire fencing or cattle panel fencing.

**Up to
70%
Faster**

Quick Brace™

Quick Brace™ is a patented system of quick and easy fence bracing. It requires no notching or cutting into the posts, which enhances the longevity of the posts. Quick Brace™ will fit 6" or 8" wood vertical posts and 2" to 4" horizontal post or pipe.

The brace is constructed of high density poly ethylene and UV protected for a lifetime of service. These braces may be set up by hand in less than 15 minutes, as there is no hole drilling or notching required. Upon assembly, you're now ready for #9 brace tension wire.
